BULL INSPECTION APPLICATION

This application must be sent to the office of the Society in order for inspection arrangements to be made. Two inspectors or one inspector and a member of council will carry out the inspection on an agreed date and time. Please read the notes below prior to sending in your application. **The bull must be at least 18 months old and preferably at least 24 months old, before inspection. Inspectors have the right to defer approval and request a further inspection and other tests if they are not completely satisfied on inspection.**

Please apply well ahead of time so the inspectors can arrange their diaries to suit the dates given by the breeder.

Members Name:

Address:

Tel No:

Bull Name/DOB/Ear Tag.

Sire:

Dam:

Suitable Dates for inspection - include some weekend dates

.....
Notes.

The bull must be able to be measured in a safe and secure area. i.e. a cattle crush. If the bull is deemed unsafe to handle then the inspectors may refuse to continue with the inspection and costs incurred will be borne by the owner of the bull. Hair samples will also be taken for DNA purposes. Wherever possible the sire and dam of the bull should be seen and DNA samples taken from them too. The inspectors may also undertake a herd inspection at the same time. This will be arranged by the society office prior to the visit.

If the bull is passed, the Society will invoice the breeder/owner. Upon receipt of payment the registration document will be issued.
